Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 September 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 8, 2006 has been entered.

Response to Amendment

2. Applicant's amendment submitted on September 8, 2006 has been carefully considered. Claims 1-6, 8, 10, 12, 14, 16, 18 and 20 are cancelled. Claims 7, 9, 11, 13, 15, 17 and 19 are under consideration.

Terminal Disclaimer

3. The terminal disclaimers filed on August 29, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration dates of U.S. 6,919,056 and U.S. 7,008,598 have been reviewed and is accepted. The terminal disclaimers have been recorded.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 7, 9, 11, 13, 15, 17 and 19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter

Art Unit: 1764

which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claim 7, it is unclear as to where the limitation of, "a notch... having a width of approximately the same diameter as the through hole," (lines 22-24), is disclosed in the specification and drawings.

As seen in FIG. 9, the claimed notch is element **20** and the claimed through hole is element **19**. The notch and through hole of the fin base plate are also shown, but not labeled, in FIG. 11. As seen in the figures, the width of notch **20** is significantly smaller than the diameter of through hole **19** (i.e., about 1/4 to 1/3 smaller). Furthermore, the Examiner is unaware of any location within the specification where the dimensions of the notch **20** width relative to the through hole **19** diameter are disclosed.

Response to Arguments

5. Applicant's arguments with respect to claims 7, 9, 11, 13, 15, 17 and 19 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Narai et al. is cited to illustrate the state of the art.
